

THE MORNING APPEAL

S. F. DAVIS, EDITOR

THURSDAY, FEBRUARY 3

FOR PRESIDENT IN 1900.

WILLIAM JENNINGS BRYAN,
Of Nebraska.

MR BRYAN ON MEXICO.

Last Sunday's Philadelphia Press has a five-column article from the pen of Hon. William J. Bryan, devoted to his experience in Mexico and the conclusion which he reached from that visit. After a few graceful lines, describing the country and acknowledging the courtesies he received from the people, he says that Mexico is friendly to the United States, and as earnest in the support of the Monroe doctrine as our country can be. That Diaz deserves all the encomiums bestowed upon him. He does not believe that his death would disturb the order of things in Mexico, but joins with the Mexican people in hoping that it may be long postponed; that Diaz has earned a place by the side of the great Juarez and the Washington of Mexico, the warrior-priest Hidalgo. That the public men are the equals in intelligence, education and general information of our own public men. That the English language is being taught more and more in the schools of Mexico, and education there is compulsory. He saw Diaz distribute several hundred prizes to the school children of the Federal district.

That the silver standard is entirely satisfactory to the great majority of the people, and there is no disposition on the part of either the Government, the foreigners there or the natives to change. The Government finances are in good shape, the premium on gold acts as a wall to keep out foreign competition. At the same time it gives a substantial bounty upon exports. Her manufacturing industries are increasing immensely. Mr. Bryan saw near Orizaba a cotton mill operating 18,000 looms and 70,000 spindles, and the company is preparing to add this year 5000 looms and 12,000 spindles. He speaks, too, of their other large factories. Woolen and other factories are all growing industries. The coffee industry is a great and growing one. Wages are higher than ever before, but are steadily increasing. He notes that in estimating wages, the differences of races, climates, habits and efficiency should always be considered. In every city he found men from the United States and European countries, drawn thither by the advantages offered because of the difference of the standard. Real estate is rising and public improvements going on. He is more than ever a believer in the need of the immediate restoration of silver by our country, at the ratio of 16 to 1, without waiting for the consent of any other nation.

It is a lasting misfortune that our own Congress does not adjourn for three weeks, and intimating Mr. Bryan's example, go to Mexico to study the situation there, and realize, as the members would, how much the American people are falling behind, because they do not restore the money of the fathers, and how much suffering would yet be avoided had they but the sense and the sense of justice to enact that legislation.—Salt Lake Tribune.

The President affected a great solicitude, in his New York speech, lest "the wages of labor or its frugal earnings be scaled down." If he will look around him he will see that the wages, save where held up by labor unions, are down to the level of 1848, and that among the unions there has been a scaling down all over the country; that is still going on, and he ought to see that except for famine and short crops abroad and a bountiful crop at home last year, there would now have been quite 500,000,000 of men, representing quite one-third of our whole people, who would now have been idle, not able to obtain even food for their labor.

There is marble enough on this Eastern Slope to build a forty-foot wall around California. Yet an inferior article is imported from Italy by the ship-load.—Bodie Index,

Coughs and colds need not be endured; they can be cured, and that quickly.

Many mixtures are temporary in effect, but Scott's Emulsion of Cod-liver Oil with Hypophosphites is a permanent remedy.

The oil feeds the blood and warms the body; the hypophosphites tone up the nerves; the glycerine soothes the inflamed throat and lungs.

The combination cures. This may prevent serious lung troubles.

50c and \$1.00; all druggists.
SCOTT & BOWNE, Chemists, New York.
